SUMMARY

Computer Science undergraduate with experience building across the full stack, from database design and backend APIs to containerized deployments and frontend interfaces. Experience shipping applications end-to-end, from requirement gathering through production delivery, both independently and in teams.

SKILLS

Languages	Python, JavaScript (ES6+), SQL, HTML5/CSS3
Backend	Node.js, Express, FastAPI, Flask, REST APIs, GraphQL
Frontend	React, Tailwind CSS, Responsive Design
Databases	PostgreSQL, MongoDB, SQLAlchemy ORM, RabbitMQ
Cloud & DevOps	AWS, Docker, Docker Compose, CI/CD (GitHub Actions)
Tools	Git, GitHub, Figma

EXPERIENCE

Freelance Web Developer, Self-employed

2025

- Built and delivered a full-stack web application for a tax consulting client, owning the project from technical scoping through deployment and handoff.
- Translated client requirements into a concrete technical specification and independently managed frontend, backend, and data logic.
- Delivered the production-ready application on schedule while adapting the technical scope as requirements evolved.

PROJECTS

SynapseGrid – Healthcare Management Backend

2026

- *Python, Flask, PostgreSQL, Docker, SQLAlchemy*
- Built a relational healthcare management system for patient records, staff schedules, and bed allocations.
- Designed a 3NF PostgreSQL schema with constraints and indexes, and containerized the Flask and PostgreSQL services using Docker Compose.

Real-Time URL Analytics System

2026

- *Python, FastAPI, RabbitMQ, MongoDB, Docker, Chart.js*
- Built a high-throughput click-event ingestion pipeline for real-time URL redirects and user telemetry.
- Integrated RabbitMQ for asynchronous metadata processing while keeping redirect latency under 10ms.
- Built a real-time Chart.js dashboard using MongoDB event data to visualize traffic spikes and user geolocation.

MUSICAa – Music Streaming Platform

2025

- *React, Node.js, Express, CSS3*
- Contributed to a full-stack streaming platform by programming Express streaming routes using file streams for dynamic media delivery.
- Built a responsive React frontend with global playback state for continuous audio across navigation.

P2P Payment Web Application

2025

- Built a peer-to-peer payment platform with secure user authentication and transaction handling.

EDUCATION

2024 – 2028 **Bachelor of Technology (B.Tech), Computer Science Engineering**
ITM Skills University, India

Current CGPA: 9.01

ADDITIONAL INFORMATION

Soft Skills: Problem Solving, Requirement Gathering, Fast Learner, Team Collaboration, Time Management

Languages: English (Fluent), Hindi (Fluent), Kannada (Conversational)
